Invites You to Become a Member Today!

http://www.colloidssurfaces.org/
The Division of Colloid and Surface Chemistry is a highly interdisciplinary division that encompasses:

- Physical Chemistry
- Nanoscience
- Materials Science
- Biochemistry
- Electrochemistry
- Chemical Engineering

The goal of the Division is to promote creative research through the exchange of scientific information by and between members representing the various disciplines that make up the Division.

The goal is achieved through:

- **Programming at Scientific Meetings**
  - ACS Colloid & Surface Science Symposium
  - Thematic Programming at ACS National Meetings

- **Supporting and Partnering with ACS Publications**
  - Langmuir
  - Nano Letters

- **Promoting and Supporting Awards and Lectureships**
  - Langmuir Lectureship
  - NanoLetters Symposium
  - ACS Award in Colloid Chemistry
  - ACS Award in Surface Chemistry
  - Victor K. LaMer Award
  - Unilever Award
  - ACS National Meeting Student Poster Awards

**HOW DO I JOIN?**
$15; $5 for students

*Not an ACS member?*
Go to [http://www.acs.org/content/acs/en.html](http://www.acs.org/content/acs/en.html)
Select Memberships and Networks, Join ACS, Technical Divisions, and Select Colloid & Surface Chemistry Division
